PORT BLAIR

Port Blair, dated 23.02.2022

ORDER NO.:.....92.....

The Port Blair city is an un-sewered area, where every house/ establishment/ Public & Community Toilets are having septic tanks connected with soak pit as a primary treatment unit. Therefore, it is necessary to ensure that the design of such septic tanks and soak pits are designed & installed by the concerned as per the codal provisions given by the Bureau of Indian Standard at IS: 2470 (Part-01 & 02)-1985 reaffirmed in 2001-Code of practice for installation of septic tanks & Soak Pits.

Under Swachh Bharat Mission (Urban), the Ministry has made mandatory that, while approving the building plan, the approving authority shall examine the compliances i.e., design of septic tank with soak pit as per the requirement of the users & fulfilling codal formalities. This is also a mandatory in applying for city's Open Defecation Free certification under SBM (U).

Therefore,

1. All the registered licensed Engineers of PBMC are hereby requested to ensure that, while designing any building, the septic tank shall be designed as per the codal provisions and enclose the same while submitting the building plan for approval in PBMC through Online Building Plan Approval System (OBPAS) at <https://www.pbmc-obpas.com> or may scan QR-Code.
2. The registered licensed Supervisors, shall check & ensure that the construction of the septic tank with soak pit is as per the provisions of IS:2470-Part-01 & 02 or approved building plan.
3. The Building Plan approving authorities shall ensure the same while approving the building plan for a house/ establishment.
4. All the Executive Engineer (Works) of PBMC shall, conduct necessary training to the masons for construction of septic tanks with soak pits as per the provisions of IS:2470-Part-01 & 02 for ensuring all the departmental building and same in the tendered works.
